Beloved Hearts of Light:

Have you thought of how far we have progressed through our association over the past few years that now we take for granted a communication between Our Octaves that would be considered impossible of achievement by the so-called 'modern man', regardless of the fact that he enjoys in his home and affairs comforts and conveniences of inventions that would have been considered equally infeasible a comparatively short time ago.

The Celestial Hierarchy has waited long for this expansion of the human consciousness which is a tremendous step in human evolution, and while the majority of mankind has not accepted either Our Presence or reality in the universe, yet We feel that the thin edge of the wedge has been inserted in mankind's unbelief and that it will be only a short time before the veil, built mostly of human incredulity, will be dissolved completely.

In the meantime, beloved ones, I do not need to remind you of the responsibility of your position in holding in your hands the strands of this yet frail bridge that divides Our Octave from yours. You hold Our honor and freedom in your keeping as well as your own and that of the dear planet which occupies such a precarious position in the solar system at the present time. Remember that it is through your word and

more important still through your example, that man will be drawn to the reality and unification of God's Kingdom everywhere.

Blessings and Love,

MAHA CHOHAN

Address by the Beloved Archangel Uriel given on May 8, 1955 - Part 5

In the next section we have the Beloved Jesus, Great Chohan of the Sixth Ray. His Chelas are those who will work in the same activity as My own - Ministration. In this portion of the star we have a two-fold color scheme - ruby and gold, the Master Himself appearing in deep pink-ruby in honor of the Sacred Heart Temple and Beloved Mary Who is the presiding Master of that Temple.

The Beloved Saint Germain, Chohan of the great Seventh Ray, occupies the section between the Beloved Jesus and El Morya. He looks magnificent, as usual, in deep royal purple, His chelas appearing in a slightly lighter shade. The balance of the people in His section will, He hopes, feed into His activity in the days to come. This portion of the star presents a most beautiful aspect, ranging as it does from the deep purple to a delicate violet at the point.

In each section a fairly wide aisle separates the 'volunteer souls' from those summoned by Cosmic Law to fulfill part of their unfinished obligations to life by reincarnation on the Earth plane.

A great band of angelic beings from each of the seven spheres, clothed in the magnificent colors of Their Rays, surrounds each section of the star.

While the souls in the seven divisions have been getting into place, and the seven Chohans taking Their positions, a great band of Mighty Spirits has been convening in the very center of the star to offer Their blessing and encouragement to the departing units. These include the Beloved Vesta and the Lady Venus, the Lord Buddha and Lord Maitreya, the Maha Chohan with Pallas Athene, the Archangels and Archaii, the Beloved Mary, the Goddess of Opportunity, and many other Great Ones.

Beloved Uriel's address is concluded in Bulletin No. 19
